Calling on all the GMC alumni

Do you remember the day you got into GMC? Do you ever recall the days in the dissection hall with its unique aroma or in the physiology lab with smoked drums to record heartbeats or in the pharmacology lab when the poor rabbit looked sad as her eyes were ready to be dilated? What about the partners in “crime” of our early formative medical career? Do you ever wonder or think about them? I do...and more often lately. I frequently surmise...where are they now? Even more tantalizing is to find out how many of us really know where our college and hospital are now? Who started our college in 1954? I bet you will be surprised as I was...will tell you more in Newport Beach.

Come celebrate our gift to the college...The Alumni Education Center (AEC).
It is ours to preserve and for generations to cherish.
